 Only First-class Barbers Employed.

### Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Iowa, but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by Oberdorfer, the druggist. Price 50c.

## Dangers of Defective Plumbing!

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enameled Ware, acknowledged as the best sanitary equipment.

Special rates for big advertisements.

THE bill that has been introduced in the Legislature to give the Attorney General several assistants should be passed. No official in Kentucky is overworked like Attorney General Hays, and it can be truthfully said there is no more conscientious public servant in Kentucky. The bill to give relief to this office was passed at the last Legislature and vetoed by Governor Beckham. Why? Easy enough to explain, because the Governor did not have the appointing power of the assistants named in the bill. It gave that power to the Attorney General, where it belongs.

Give the Attorney General the much needed assistants and you shut off \$5,000 fees like the State College paid to two "Machine" lawyers for doing a \$200 job. It would look well in print to give the amounts paid out to lawyers in the State appointed by Beckham to do work that belonged to the duties of the Attorney General's office. How much longer are the people of Kentucky going to stand this Beckham-Haley-Hager gang. They are now balking legislation of all kinds simply to benefit the running of their "machine."

If the Legislators at Frankfort will do their duty to themselves and to their constituents they will vote for the bill framed by Attorney General Hays asking for assistants in his office.

ONE of the best measures yet offered in the Kentucky Legislature was that by the Hon. R. W. Miller, of Richmond, to eliminate the lobbyists. The consensus of opinion is that they shall no longer enjoy the freedom and privileges heretofore allowed these persistent "members of the Third House." They have become a nuisance to the Legislators, and it is necessary to get rid of them not only as a measure of relief from constant annoyance, but as a protection against corrupt influence and interruption of public business. Mr. Miller should be given a gold medal if he succeeds in eliminating this evil from the Kentucky Legislature.

THE published statement that Judge Paynter would be the first Senator of the United States from Kentucky, since the Civil War, who did not serve in the Confederate Army, was quickly demolished. Only three of the eleven Senators who have served in that time took up arms for the South. Really, the war is nearer over than people thought it was.

THE citizens of Paris should begin to make arrangements now for the great Knights Templar Conclave that will be held in this city in May. This will be the biggest thing ever held in Paris and everybody wants to be prepared to give a hearty welcome to the chivalrous Knights and lend a hand in entertaining them in the regular old Kentucky style.

A SUPERSTITIOUS subscriber found a spider in his paper and wrote to the editor asking if it was an evil omen. The editor replied: "It is nothing of the kind. The spider was merely looking over the paper to learn who was not advertising, so it could spin its web across the store door and thus be free from disturbance."

THE Commercial Clubs of all surrounding towns, without exception, are now more active than ever before in meeting and looking out for the interests and advancement of their respective cities in the business world. Would it not be well for the Paris Business Men's Club to hold one more meeting at least?

HERE is legislation for you: A bill is pending in the Mississippi Legislature, with strong probability of its passing, which requires every citizen to pay a poll tax. The penalty for failure to do so is that the children of the delinquent shall be barred from the public schools.

THE Legislature has passed a dog law, imposing a tax of \$1 on each dog. If the tax is collected in Paris we venture the assertion that this city will pay more dog tax into the treasury than any other town in Kentucky.

It has been whispered to us that a Paris Business Men's Club was organized in Paris several months ago with nearly a hundred members. How about it? What's become of it?
